

Press Release

hubergroup strengthens sales and support for web offset printing operations

*New resources allocated to **hubergroup**'s web offset business to bolster its position as a strong, reliable partner for Europe's web offset printing industry*

Kirchheim near Munich/Germany, 15 February 2019 – **hubergroup**, one of the world's leading specialists for printing inks, coatings and press room auxiliaries, is building on its long tradition and extensive expertise in web offset inks and coatings with a new sales and support infrastructure dedicated to helping web offset businesses in Europe operate more efficiently and profitably. The new organization includes talented professionals with long tenure in the industry and with a strong focus on quality and service.

"**hubergroup** has a long history of supporting the European web offset industry, especially in the area of newsprint, with high quality inks, coatings and other solutions," says Thomas Kleps, Director Sales Europe at **hubergroup**. "But we are not resting on our laurels. By establishing this dedicated web offset team, we make our ability to service and support web offset printers even more effective, strengthening our market position and ensuring we remain a strong and reliable partner."

Leadership in the new organization includes:

- Thomas Stumpf, Sales Manager, Web Offset Europe. Thomas has worked for **hubergroup** in the web offset product segment for many years in various technical and commercial functions.
- Thomas Fuss, Product and Technology Management. Thomas has many years of experience in web offset printing operations and previously acted as the Director of Product Management, Web Offset Europe at **hubergroup** for the past four years.

"In addition to these strong leaders and their teams in Germany," Kleps adds, "we will be serving the European web offset business outside of Germany through local and highly qualified sales professionals and application engineers. We look forward to working closely with our web offset customers to ensure their future success through even better productivity and profitability."
